

## Etheridge Software Scales™

Midlothian, Virginia  
[www.EtheridgeAutomation.com](http://www.EtheridgeAutomation.com)

**Our revolutionary scales are installed in the motor starter of the conveyor, with no electrical components outside of the MCC and no moving parts whatsoever.**

Benefits include:

- Ease of installation - no parts or wiring to install on the conveyor
- Effortless calibration - no test weights
- No moving parts, no load cells and no maintenance
- Easily transferrable from one conveyor to another
- Accuracy is not compromised over time
- Optional Software Speed Switch™ provides fault alarms and interlocks

Etheridge Software Scales™ are up and running in a multitude of quarries across North America. Our customers are enjoying higher accuracy and lower costs. Contact us to find out more about your next scale.
